

Weekends 2018

C. Bechstein Weekends

We invite associated piano technicians to our C. Bechstein Weekends. C. Bechstein Weekends offer vivid exchange of experience and targeted training, supported by our master piano technicians. During the training period from Friday morning till Sunday afternoon, high-quality C. Bechstein instruments will be available for your exercises. You don't have to leave your shop/work for longer.

You can choose the subject for your 2½ days (16 hours) training yourself. Beside useful advice and hints for everyday service of C. Bechstein instruments, there will be enough time available for a factory tour and information about C. Bechstein.
